Peshawar, Pakistan

SUMMARY

Results-driven software developer with **4+ years of hands-on experience** building and deploying full-stack web applications, digital systems, and real-time platforms. Independently designed and delivered a complete Digital Stadium Entry & Ticket Verification System, presented to **Pakistan Cricket Board** as a production-ready solution. Experienced in e-commerce development, UI/UX design, and professional media production including voiceover work for a **3M-subscriber YouTube channel**. Consistently takes projects from concept to deployment with measurable outcomes.

SKILLS

Languages: PHP (Laravel, Symfony), JavaScript (React.js, Node.js), HTML, CSS, C++, Java
Databases: MySQL, MongoDB
Frameworks & Tools: WordPress, Git, REST APIs, React.js, Node.js, Adobe Premiere Pro, Photoshop
Core Skills: Full-Stack Development, QR Systems, Real-Time Dashboards, UI/UX Design, E-Commerce, Video Editing, Voiceover Production
Languages: English (Professional), Urdu (Native), Pashto (Native), Hindko (Proficient)

FEATURED PROJECT

Digital Stadium Entry & Ticket Verification System | *Presented to (PCB)* *2025 – Present*

- Designed and developed a Fan Portal enabling CNIC/Passport-based identity verification to generate cryptographically signed, time-validated QR digital tickets, completely replacing physical TCS ticket collection
- Built a dedicated Gate Scanner App with real-time QR verification, CNIC match validation, and duplicate entry detection; engineered for offline capability ensuring uninterrupted operations during unstable connectivity
- Delivered instant audio, visual, and haptic feedback per scan, reducing gate processing time to under 3 seconds per fan
- Engineered an Admin Control Dashboard providing live stadium attendance, gate-wise entry breakdown, duplicate attempt alerts, scanner device status, and full timestamped audit logs
- Architected for high-volume deployment supporting thousands of concurrent entries across multiple gates simultaneously
- Roadmap approved: Fan App (iOS/Android), Gate Staff Scanner App, and PCB Super-Admin web dashboard planned for post-prototype phase

WORK EXPERIENCE

Web Developer *May 2022 – Present*

Aptech Peshawar | Peshawar, PK

- Developed and maintained the institute's full educational website including course management, student registration, and cross-browser compatibility using PHP, HTML, and CSS
