SUMMARY

Results-driven software developer and systems architect with 4+ years of hands-on experience building and deploying full-stack web applications, digital systems, and real-time platforms. Independently pioneered a complete Digital Stadium Entry & Ticket Verification System — presented to Pakistan Cricket Board as a production-ready national-level solution. Experienced in e-commerce development, UI/UX design, and professional media production including voiceover work for a 3M-subscriber YouTube channel. Consistently takes projects from concept to deployment with measurable outcomes.

SKILLS

Languages: PHP (Laravel, Symfony), JavaScript (React.js, Node.js), HTML, CSS, C++, Java

Databases: MySQL, MongoDB

Frameworks & Tools: WordPress, Git, REST APIs, React.js, Node.js, Adobe Premiere Pro, Photoshop, MS Office

Core Skills: Full-Stack Development, QR Systems, Real-Time Dashboards, UI/UX Design, E-Commerce, Video Editing, Voiceover Production

Languages: English (Professional), Urdu (Native), Pashto (Native), Hindko (Proficient)

FEATURED PROJECT

Digital Stadium Entry & Ticket Verification System | *Independently built & presented to Pakistan Cricket Board (PCB)* *2025 – Present*

- Pioneered the design and development of a Fan Portal enabling CNIC/Passport-based identity verification to generate cryptographically signed, time-validated QR digital tickets — completely replacing physical TCS ticket collection
- Engineered a dedicated Gate Scanner App with real-time QR verification, CNIC match validation, and duplicate entry detection; built for offline capability ensuring uninterrupted operations during unstable connectivity
- Delivered instant audio, visual, and haptic feedback per scan — reducing gate processing time to under 3 seconds per fan at scale
- Architected an Admin Control Dashboard providing live stadium attendance, gate-wise entry breakdown, duplicate attempt alerts, scanner device status, and full timestamped audit logs
- Designed for high-volume deployment supporting thousands of concurrent entries across multiple gates simultaneously
- Roadmap: dedicated Fan App (iOS/Android), Gate Staff Scanner App, and PCB Super-Admin web dashboard planned for post-prototype deployment

WORK EXPERIENCE

Web Developer *May 2022 – Present*

Aptech Peshawar | Peshawar, PK

- Developed and maintained the institute's full educational website — course management, student registration, and cross-browser compatibility using PHP, HTML, and CSS
- Delivered web development instruction to 20+ students covering PHP, JavaScript, HTML/CSS, and WordPress
- Improved website load performance and user experience through UI/UX optimizations

Freelance Web Developer & Video Editor *Jul 2021 – Present*

Independent (Local & International Clients) | Remote

- Developed 5+ full-stack e-commerce platforms using PHP, React.js, Node.js, and MongoDB — payment gateways, inventory management, and user authentication for international clients
- Delivered 10+ WordPress websites with SEO optimization, dynamic galleries, and contact form integrations
- Ranked 1st among 65 competing websites at Xpert IT Solutions — recognized for technical quality and design
- Produced 2D animation content for a children's YouTube channel and delivered video editing for multiple clients

Professional Urdu Voiceover Artist *Mar 2023 – Aug 2023*

Towards Eternity YouTube Channel (3M Subscribers) | Remote

- Delivered professional Urdu voiceovers for educational and motivational videos on a globally recognized multilingual channel currently at 3 million subscribers
- Produced voiceover content for a video that independently surpassed 237,000 views on YouTube
- Selected among top 20 finalists in a national-level voiceover competition

Freelance Voiceover Artist *Jan 2021 – Present*

Upwork & YouTube | Remote

- Provided complete content localization — voiceovers, dubbing, subtitling, and translation for commercial YouTube projects and client productions

Social Media Manager & Graphic Designer *Aug 2018 – Present*

Al Islam Foundation International | Peshawar, PK

- Designed and published social media content consistently reaching thousands of followers across platforms
- Managed voiceover and video production for religious and educational content distributed online

Video Editor *Jan 2020 – Jun 2022*

86 Production & Event Organizer | Peshawar, PK

- Edited event promotional videos and managed voiceover assignments for multiple concurrent productions ensuring quality and on-time delivery

OTHER PROJECTS

Mmm Sale — E-Commerce Platform *PHP, JavaScript* *Jul – Aug 2024*

- Built a full-stack e-commerce website with payment gateway integration, inventory management, and a responsive secure UI for international clients

Aptech Institute Website | *PHP, HTML, CSS* *May – Jun 2024*

- Developed a complete educational website with course management, student registration, and cross-browser compatibility

Full-Stack E-Commerce (React + Node) | *React.js, Node.js, MongoDB* *Aug – Oct 2023*

- Built product filtering, shopping cart, and full user authentication system — scalable web application architecture

EDUCATION

BS Computer Science *Feb 2024 – Present*

University of Engineering & Technology (UET) | PK

Amazon & Digital Marketing *Jul – Oct 2024*

Xpert IT Solution & Training | Peshawar, PK
